

Anti-bacterial Mask

Masks are designed to fit your face tightly to minimize the space between your mouth / nose and mask. The upper shield design adds protection above your nose to avoid bacteria entering from the top. The mask requires no extra metal or plastic stripe to hold its shape. Elastic ear loop can be replaced and adjusted if necessary, making the mask last longer!

Unique Friendly Design

3 - Layers Protection

How to care

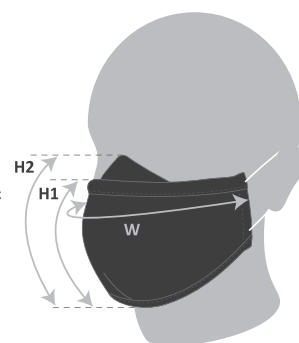

- No need to wash before using.
- Can spray to sanitize the outer shell ONLY by alcohol, NO bleach, NO hypochlorous acid, NO dry cleaning.
- Wash by water with detergent or soap.
- Hand wash or put in mesh sack wadher.
- Hanging dry or tumble dry low.
