Push-in Connectors

Hua Wei's push-in connectors providing a visual termination for 22 - 12 AWG solid wires. With color-coded precision, identifying connections is a walk in the park, while the compact size ensures a seamless fit into tight spaces. Ideal for various applications, including lighting installations, pre-fabricated wiring systems, and branch circuit wiring.

Say goodbye to complicated twisting – push your way to rapid, reliable connections with our compact and clear choice push-in connectors. Your go-to solution for any splicing job, Hua Wei's push-in connectors redefine convenience in electrical installations.

Comply with the standard UL 486C.

Hua Wei Series Products are Complete and Feature Exceptional Qualities:

- The **PIC21 series** is the smallest and lightest on the market, suitable for use in narrow junction boxes.
- The **PIC33 series** is ergonomically designed, performing better on stranded wires.
- The **PIC35 series** uses double spring clips, ensuring greater safety and reliability.
- The **PIC86 series** is suitable for large wire diameters.

Push-in Connectors

FEATURES:

- Tool-free! No-Twist! Poke-in Wire Save Installation Time
- Simplified Design and Compact Size Helps in Tight Locations
- Check Port Design Provides Continuity Testing
- Secure Connection, Minimizing Unintentional Disconnection, and Restricting Pullouts

APPLICATIONS:

- For Grounding and Bonding Applications. Use in Building, Appliance, Lighting Wiring and Junction Boxes

INSTALLATION INSTRUCTIONS:

1. Wiring must comply with all applicable electrical codes.
2. Turn OFF power before removing or installing connectors.
3. Strip wires 11 mm (0.43 inches).
4. Grip wire firmly and push conductor into open port. Slightly twist stranded wire counter clockwise while inserting. Use only one conductor per port.
5. Verify conductor is fully inserted to the back of the connector.
6. Test connection through the slot with a voltage tester.
7. To correct or change a wire, pull and twist it back and forth.
8. Connector is reusable on solid wires of the same wire gauge or larger. If reusing connector, cut and re-strip conductors.
