

# STAINLESS STEEL ALL PURPOSE BANDS

Also known as fixing bands or metal strapping, are malleable stainless steel straps that make securing, supporting and stabilising pipes to ceilings, secure brackets or fixings to walls, strapping in materials for transport, general building maintenance, and more.

- Long, thin and flexible pieces of stainless steel straps with pre-punched holes of different sizes.
- The pre-punched holes provide space for screws, nails or bolts to secure the bands onto walls and other surfaces.
- Most versatile option, easily bent into shape and cut with tin snip.
- Stainless Steel for ultimate superior corrosion resistance.
- Material: Stainless steel type: #304 , 316.
